International Transfers

Where your data is transferred outside of Australia, for example to the RHL entity in the UK (HR GO), we ensure that the information is managed in accordance with the Australian Privacy Act 1988. We also retain accountability for your data in the event of any lapse of the Australian Privacy Principles by an entity outside of Australia.

We will explicitly seek consent for any transfer of your personal data to a country that is deemed not to provide an 'essentially equivalent' level of data protection to that which exists in Australia. If you consent to the disclosure, and the overseas recipient handles the personal information in breach of the Australian Privacy Principles:

- the overseas entity will not be accountable under the Privacy Act; and
- you will not be able to seek redress under the Privacy Act.

Where we process the personal data of individuals in the UK, we have taken appropriate steps to ensure that the Personal Data processed has an essentially equivalent level of protection to that guaranteed in the UK. We do this by ensuring that:

- Your Personal Data is only processed in a country which the Secretary of State has confirmed has an adequate level of protection (an adequacy regulation) or
- We enter into an International Data Transfer Agreement ("IDTA") with the receiving organization and adopt supplementary measures, where necessary. (A copy of the IDTA can be found at [international-data-transfer-agreement.pdf](https://ico.org.uk/international-data-transfer-agreement.pdf) (ico.org.uk))

How long we keep your data

We will retain your personal data for the duration of our relationship and/or as long as is necessary to provide you with our services. Personal data will also be retained for a reasonable period thereafter to enable us to meet our contractual and legal obligations and to deal with complaints and claims.

At the end of the retention period, your personal data will be securely deleted or anonymised, for example by aggregation with other data, so that it can be used in a non-identifiable way for statistical analysis and business planning.

How we protect your data

We implement appropriate technical and organisational measures to protect data against unauthorised or unlawful processing and against accidental loss, destruction or damage.

In addition to the technical and organisational measures we have put in place, there are simple things you can do to in order to further protect your personal information, such as:
